A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 7, 2004 has been entered.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: applicant's amendments are deemed to overcome the outstanding rejection and place the application in condition for allowance. In particular, applicant has amended the claims to remove the recitation of a "relatively uniform" electromagnetic field to clarify the claim language. With regard to the prior art, applicant has amended the claims to more specifically recite an antenna having a substantially hemispherical distal tip and having a conical shape converging proximally from the distal tip to form an outer emission surface. The prior art fails to disclose such an antenna structure.

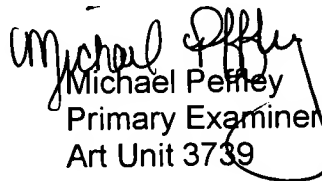

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Peffley whose telephone number is (703) 308-4305. The examiner can normally be reached on Mon-Fri from 6am-3pm.
